

ACT with CMA CGM+

TOWARDS CARBON NEUTRALITY

10/22/2021

Dear customer,

The CMA CGM Group would like to thank you very much for your action in favor of the environment and local populations.

Limiting the impact of our activities is a top priority for our Group, and we are proud to offer solutions to our engaged customers, so that we can act with you to fight climate change and its consequences for our future.

By choosing **POSITIVE OFFSET**, you have directly contributed to two projects, carefully selected by CMA CGM in partnership with PUR Projet, that have a positive impact on the environment and on local communities.

Positive impact on environment is materialized by the **offsetting certificate** describing where and when the emissions generated by your TEUs have been offset, as well as the details pertaining to your certified Verified Emission Reductions.

You will also find a **contribution certificate** detailing the positive impact of your contribution on communities through forestry projects led by NGOs or local partners, allowing you to take a stand not only for the future but also for the present of local populations.

Thank you very much for acting with us towards carbon neutrality.

For a positive impact on local communities
through agroforestry projects

JUBILACIÓN SEGURA, PERU

Contributing to the preservation of the
environment and the socio-economic development
of communities.

Thanks to your contribution, agroforestry trees will be planted in the regions of San Martin and Amazonas in Peru.

The Jubilación Segura project aims to protect these fragile ecosystems by promoting the transition to agroforestry and sustainable coffee and cocoa production in these biodiversity-rich regions, which are heavily affected by illegal deforestation and land degradation.

Through your participation, you contribute to the reforestation of degraded lands, the conservation of forests, and the strengthening of the action of local cooperatives of small producers, committed to the preservation of their environment.

THANK YOU FOR YOUR CONTRIBUTION
